Apply for a <u>Community Energy Management</u> <u>Program Grant</u>

 This grant program provides financial assistance for communities to improve energy management and accelerate the implementation of energy efficiency and renewable energy. Grant funding is available to local governments, tribal governments, and other publicservice entities for energy-related projects. The maximum grant award is \$100,000 per applicant. Grant applications are now being accepted through December 31, 2024.

Get ready for the Michigan Home Energy Rebate Program

- This program is expected to launch statewide early in 2025. To stay engaged, advocate for your needs, and learn about the program roll-out:
 - <u>Sign up for notifications</u> about the Home Rebate program.
 - Current plans under this program include prioritizing low-income households living in homes built before 1980, those with heating and cooling needs, and households with older adults or young children.
 - Learn more about the rebate program <u>here</u>.

Pre-register for <u>Broadband</u> <u>Equity, Access, and</u> <u>Deployment (BEAD) Program</u> <u>Funding</u>

In 2023, Michigan was awarded about \$1.5 billion in BEAD Program funding to be allocated across the state through a subgrantee process. Over the past year, the State has been working on an action plan for use of these funds. Details about the sub-grant process for administering these funds can be found here and in this webinar. A pre-registration process is strongly recommended and is now open for interested applicants to learn more about the application process and be ready to apply. Eligible subgrantees include non-profit organizations, publicprivate partnerships, and local governments.

Watch for information coming soon about grants to address environmental quality issues in Detroit,

 including stormwater runoff and untreated stormwater. The Southeast Michigan Council of Governments was awarded over \$4 million to fund grants ranging from \$50,000 to \$300,000 addressing these issues, with a priority for disadvantaged communities. A webinar about the project will be held in January 2025, and grant applications can be submitted beginning April 1, 2025. Watch for more details about this opportunity here.

Get ready for the launch of the Great Lakes Environmental

Justice Thriving Communities Grantmaking Program

• The Midwest states in EPA's Region 5 will be distributing \$40 million in grant funds in the coming months. Applications for funding are expected to open in the Fall of 2024. <u>Eligible projects</u> include those addressing air and water quality monitoring and improvements, stormwater system issues, environmental pollutants, job training, disaster preparedness, and healthy homes. Learn more about this opportunity <u>here</u>.

Learn more about the Michigan Solar for All program

 The Solar for All program is expected to begin implementation in the Fall of 2025.
 In the meantime, stay up to date by completing a <u>Solar for All Interest Form</u>.
